

Welcome to Riverplace Periodontics!

We want your experience with us to be as enjoyable as possible. Because of this we have added services to support you in your treatment:

- Your first visit to our office is an examination and is not a consultation at no charge. **The charge will be \$145-\$200. This fee is expected in full at the time of the exam if you do not have insurance.**
- We will contact your general dentist and have them email all current x-rays. ***If they do not have current x-rays, we may need to take a full mouth series of x-rays or a single panoramic x-ray to have proper documentation for billing your insurance. Your plan may or may not cover these x-rays, please contact them directly for coverage details.***
- Predetermination of Benefits will be run through your insurance company prior to receiving treatment.
- No interest 6-month financial plans are available through Care Credit for qualifying treatments.
- We offer Oral sedation as an option to help lower anxiety during treatment. If this option is chosen, all treatment payments are made one week prior to treatment, which secures your reserved appointment and leaves fewer details to work through when you arrive for treatment.

Patient education is a priority to us. If there is something you don't understand, please ask! We want you to feel empowered to make good decisions about your oral health care.

We believe in long-term health and wellness. With this goal in mind, we also provide the highest quality materials and laboratories for your treatment.

We hope you will be more than satisfied with our services.

Welcome aboard!
